

Welcome to Trump International

The exclusive Trump International Golf Club is located in the heart of West Palm Beach just under 30 minutes from Boca Raton and Jupiter.

Boasting 27 of the most magnificent fairways and greens anywhere, our Club is listed by Golf Digest as one of the 50 Best New Golf Clubs built in the United States. The prestigious Florida Golf Magazine rates it "The #1 course in the State of Florida" and we are ranked nationally by GOLF Magazine's "Top 100 in the Country". Additionally, Trump International Golf Club is the recipient of the Six Star Diamond Award from the American Academy of Hospitality Sciences, rating it "The Best Golf Course in Florida."

A letter from Jim Fazio

What is now Trump International Golf Club began as a 300 acre parcel of flat, scrub land that bordered the busy Palm Beach International Airport.

The Trump Organization envisioned a transformation into what is now a world-class course

comprised of hills, palm trees, flowers, waterfalls, oak trees, streams, creeks, and coconut trails. He provided an unlimited budget, topping \$40 million, in his desire to create the best golf course that could be built: something very, very special!

We moved over three million cubic yards of earth in a period of nine months, part of which was used to create the highest golf elevation in the state of Florida, 58 feet above sea level. The result is a landscape unique to South Florida and the creation of a southern live oak forest, highlighted with tropical plants and palms characteristic of the region. Over 1000 live oak trees ranging from 20 to 50 feet were adapted to the landscape and eight hundred coconut palms now grace the grounds. The perimeter of the course is ringed with 700 mature Royal Palm Trees that define the boundaries and establish a formal, estate quality.

A great golf course also must have more than aesthetic appeal. The course, which opened in the fall of 1999, was built for tournament caliber play, measuring 7,400 yards from the back tees. Each hole has six sets of tees, so each accommodates a variety of skill levels and gives the option of playing over water.

Because the land was originally flat, we were able to think of different concepts with no two holes alike. The layout, routing, and bunker shapes are all unique. If I never design another course, I am satisfied that this project was the highlight of my career.

About P.B.C. PAL

The Palm Beach County Sheriff's Office gladly supports and staffs the efforts of the Palm Beach County Police Athletic League. The PAL Program encompasses all of the unincorporated areas from as far south as Boca Raton, stretching north to Jupiter and collaborates with many municipalities and organizations throughout Palm Beach County.

Palm Beach County PAL is a registered National PAL program made up of a Board of Directors, Executive Director, Sheriff's Deputies, and the backbone of the organization, its volunteers.

Palm Beach County PAL is a 501c3 Charitable Organization, (Fed. Tax Id. #: 65- 0461384) and is registered with the Florida Department of Agriculture & Consumer Services, Solicitation of Contributions Section. Palm Beach County PAL is partially funded by the Palm Beach County Sheriff's Office and relies heavily upon donations and fundraisers to obtain the funds necessary to conduct the activities needed to keep the children busy with organized activities.

What is PAL?

The Police Athletic League is a youth crime prevention program that relies on educational, and recreational activities to cement a bond and create trust and understanding between law enforcement and youth.

More Than a Program

The Police Athletic League program is based on the conviction that young people, if they are reached early enough, can develop strong positive attitudes towards law enforcement in their journey through life toward the goal of maturity and good citizenship.

The PAL program brings youth under the supervision and constructive influence of a law enforcement and expands public awareness about the role of a police officer. Part of that role is the reinforcement of the responsible values and attitudes instilled in young people by their parents. Studies have shown that if a young person respects a police officer on the ball field, gym or classroom, the youth will likely come to respect the laws that police officers enforce. Such respect is beneficial to the youth, the police officer, the neighborhood and the business community.
